Node.js Intern

SocialPilot is looking for a Node.js Intern. Our team uses a variety of web technologies, including React.js, Node.js and Mongo to build highly scalable software. It is used by over 130K users across the world.

As a Node.js developer, you will work with the product engineering team to deliver high quality B2B products.

About the role:

- Location- Ahmedabad
- Type - In-office Internship
- Duration- 6 months
- Stipend- 12k/month.

Ideal Candidate

- Strong knowledge of Computer Science fundamentals in object-oriented design, data structures, algorithm design.
- Problem-solving, complexity analysis, databases.
- Experience in writing clean reusable Node components which work well on different browsers and devices.
- Excellent verbal and written skills.

Responsibilities

- Write reusable, testable, and efficient code.
- Develop new features at the user's end, using Node.js.
- Coordinate with designer(s) and fellow developers to maintain a seamless workflow.
- Review the product and provide ideas for its improvement.

Our tech stack is NodeJS, ReactJS & Redux, MySQL, MongoDB, Redis. Our platform is hosted on AWS Cloud.

About SocialPilot
